

## Charades Writing Assignment

In class today, we played charades. You will be using your personal experience to complete this 12-15 sentence writing assignment. You will need to call on specific events/moments from the game to complete this assignment. You must correctly include 9 vocabulary words from this unit (They must be bold, underlined and used correctly (i.e; example)). This is due next class and must be typed.

What the assignment must answer:

1. You were not allowed to speak. What other forms of language were used, if any?
2. How did not being able to speak change your thinking process?
3. Were there topics for the game that were harder to present because you could not speak? Examples?
4. What made some classmates better communicators in this game than others? Did anyone stand out? Why?
5. How is what we did in class today relate to what we have covered so far in the unit?

Good Luck!
